

Lendell L. Nolan, PhD Personal Life Mandate

I was created to equip leaders to “*unleash the power of a focused life*” (Life Purpose) by embracing my calling as a *strategic life purpose coach* (Major Role). I aim to employ my leadership, motivational, and analytical skills to offer strategic coaching that helps people dial in their God-given purpose. Rather than a sage on the stage, I serve as a guide on the side offering **focused attention and thoughtful feedback with the goal of empowering leaders to **unleash** their unique design to honor God and serve others.**

Leaders must first cultivate a life of **focus** to **unleash** their God-given potential. I help people focus their time, talents, and treasures on the gold standard of God’s eternal purposes. In a world filled with fleeting pursuits, I challenge them to invest their lives in endeavors that will withstand the refining fire of God, deeply rooted in matters of eternal significance (1 Corinthians 3:10-15). This goal is commonly reached through large group seminars, small group retreats (FocusUnleashed Weekends™), regular life coaching sessions, or intensive life plan facilitations (4th Dimensional Living™).

As a *strategic life purpose coach*, my mission is to create a ripple effect of positive change through concentric circles of influence as a Person, Partner/Parent, Pastor, Professor, and Purpose Coach. For me, the core of this approach begins by practicing the art of self-leadership, prioritizing the eternal. The next layer is dedicated to supporting my spouse and adult children in realizing God's vision for their lives. The third layer extends to my local community, where I contribute as a pastor, offering life coaching to congregants and community influencers. Expanding into a national and international reach, I invest in leaders as a Professor of evangelism, missions, and life coaching at Rockbridge Seminary and President of FocusUnleashed LLC.

This deliberate focus on the strategic coaching of key leaders is aimed at fulfilling my life vision. *I see first, second, or third-generation followers of Christ in every nation of the world “**unleashing the power of a focused life**” as a result of strategic life purpose coaching through a purpose-driven life, family, church, seminary, and life purpose coaching center (Ultimate Contribution).*
